APPLICATIONS

Areas where hands require washing - theatres, police stations, clinics, nursing homes, children's homes, mortuaries, prisons, and any other occupation/industry where there is a risk of transmission by physical contact, e.g. food handling - before and after eating

PROPERTIES

Appearance:	Clear, Water Like form
Odour:	Alcoholic
Ph:	-5
S.g.	-0.83

Shelf life 12 months date can be found on the reverse of the bottle. Stock may vary accordingly to production time and date.

PRODUCT FEATURES

1. Does not contain any nitrosamine forming ingredients
2. Ethanol level of 80% v/v.
3. Kills all known bacteria > 99.99%.

DIRECTIONS FOR USE

For personal hygiene to disinfect hands before and after eating, after going to the bathroom or anytime when hands need to be sanitised. After washing hands properly and rinsing well with water, apply the Pure labs liquid hand sanitiser to hands. The warmth of the hands will make the liquid evaporate over time. Ensure that you rub hands together as if washing your hands to ensure all of the hands surfaces are covered. Allow to dry naturally. The alcohol content is present to help with the drying effect and ensure the highest levels of efficacy. Hands should feel supple and soft after use.

SAFETY PRECAUTIONS AND FIRST AID

Please refer to MSDS sheet.
