### User information

These products are classed as Personal Protective Equipment (PPE) by the European PPE REGULATION 2016/425 and have been shown to comply with this Regulation through the Harmonised European Standard(s) EN ISO 374-1:2016+A1:2018, EN 420:2003+A1:2009 and EN ISO 374-5:2016

**Product reference:** CG-01

### Product description:

Disposable Powder Free PVC Gloves, Color: Clear

### Glove sizes available:

Size 06(S) / Size 07(M) / Size 08(L) / Size 09(XL)

### Storage and transport:

When not in use, store the product in a well-ventilated area away from extremes of temperature. Check for damage before use, do not use damaged gloves

### Recommendations for use:

The purpose of the non-sterile powder free vinyl glove PPE type is to protect the user against:

- Dirt, as long as they are not harmful substances
- Microorganisms
- Specified chemical products

### Recommendations against wrong use:

- It is recommended to check that the gloves are suitable for the intended use because the conditions at work place may differ from the type test depending on temperature, abrasion and degradation.
- When used, protective gloves may provide less resistance to the dangerous chemical due to changes in the physical properties. Movements, snagging, rubbing, degradation caused by the chemical contact etc. may reduce the actual use time significantly. For corrosive chemicals, degradation can be the most important factor to consider in selection of chemical resistance gloves.
- Before use, inspect the gloves for any defect or imperfections.
- The penetration resistance has been assessed under laboratory conditions and related only to tested specimen.
- The glove does not contain any substances that are known to cause allergies.

### Manufacturer:

Jiangsu Cureguard Glove CO., Ltd

### Address:

No.65 Shenzhen Road, The Economic Development Zone, Suqian, Jiangsu, 223800, China

Date of manufacture: 02/2021

Batch number: PO 202102

Date of expiry: 01/2026
